Capturing Life Stories and Family Histories

Our services are designed to help you preserve your memories and family legacy. Family history and genealogy research is available at \$65 per hour, including expert research to trace ancestry, build family trees, and organize family records. Guided biography interviews are available via Zoom for \$65 per hour or in-person for \$85 per hour, offering structured, personalized sessions to capture life stories, important memories, and family traditions. Custom project quotes are available upon request.

Digitization Services

The Basic Plan is ideal for individuals and families who want to preserve important memories by professionally scanning photographs, documents, and memorabilia at their location, with secure, easy-to-use access through Google Photos.
